

MINGLES NORTH STAR

BRAND. COLLECTIBLE. VALUE SYSTEM.

01 / PRODUCT + ECONOMIC NORTH STAR

Mingles is the collectible identity at the center of everything we build. Tequila creates real-world value. PVG creates onchain experiments. Activation connects ownership to the value the ecosystem creates.

02 / BRAND ARCHITECTURE NORTH STAR

Mingles is the brand and the collectible. PVG is where we experiment. Mingles Protocol is how ownership connects to the value created across those experiments and products.

THE SYSTEM IN ONE LINE

TEQUILA

Creates real-world value

PVG

Creates onchain experiments

ACTIVATION

Connects ownership to value

PROTOCOL

Organizes participation

03 / DECISION FILTER

- 1 Does it strengthen Mingles as the collectible identity?
- 2 Does it create external value through Tequila or PVG?
- 3 Does Activation connect that value back to ownership meaningfully?

If an idea does not strengthen identity, create external value, or connect that value back to ownership, it does not belong in the Mingles core.
